### Working Safely

The College is committed to the development and maintenance of high standards of health, safety and welfare at work and will actively promote this through its operations. The College constantly challenges itself to improve in terms of health and safety standards, in order to match or exceed expected industry standards. This is done by regular audits, in depth investigations and the continuous promotion of 5S principles.

In line with this commitment, there is a dedicated policy for Health and Safety, including specific sub-policies for dedicated elements of Health and Safety.

See QAPP 5 Health and Safety and relevant sub-policies.
