TRANSITION PACKAGE

WELCOME

Welcome to your first steps of becoming a Barber. During your time with us we aim to develop your practical skills in the following areas: the creative art of cutting men's hair, the specialist work of cutting facial hair and how to offer a good consultation service for male clients.

RESEARCH TASK

Research the different designs and styles for men's facial hair and hair styles.

Create a style booklet using a variety of many different haircuts (Long and short) and facial styles (Beards and moustaches).

You can present it in either a slide show or Word document.

Use Google search to help you find out the information you need to complete the research project.
